

36<sup>th</sup> Annual Meeting of the Society for Exact Philosophy  
May 13 – 17, 2008  
Hilton Garden Inn, Laramie WY

Tuesday – 5/13

**3:00- Informal gathering (Train Depot; \$5 SEP membership required)**

Wednesday – 5/14

**8:15- Conference registration**

***Salon A***

9:00-10:15

- Darko Sarenac (Colorado State University). The logic of dynamic positivism: On making knowledge public.

10:30-11:45

- Giacomo Sillari (University of Pennsylvania). Quantified logic of awareness and impossible possible worlds.

***Salon B***

9:00-10:15

- Nicole Wyatt (University of Calgary). Conventions for illocutionary silencing.

10:30-11:45

- Steven T Kuhn (Georgetown). Morality, social pressure and advocacy games.

***Salon F***

9:00-10:15

- Joseph Baltimore (West Virginia). Non-reductive physicalism, substance dualism, and the piggyback argument.

10:30-11:45

- Anthony Dardis (Hofstra University). Supervenience, properties and mental causation.

***Salon G***

9:00-10:15

- David Jehle (Rutgers University). Epistemic closure and Bayesian evidentialism.

10:30-11:45

- Nick Treanor (University of Toronto). The measure of knowledge.

**11:50-1:50 Lunch**

***Salon A***

2:00-3:15

- Mark A Brown (Syracuse University). Acts and actions in branching time.

***Salon B***

2:00-3:15

- Dan Korman (University of Illinois, Urbana-Champaign). Strange kinds, arbitrariness, and the case for robust particularism.

***Salon F***

2:00-3:15

- Prasanta S. Bandyopadhyay & Mark Taper (Montana State University). The belief/evidence distinction: A fresh look at epistemology.

***Salon G***

2:00-3:15

- Francois Lepage (University of Montreal) & Charles Morgan (University of Victoria). Counterfactuals and conditional probabilities

***Salon C***

**3:30-5:30 Keynote Address. Graeme Forbes**

**5:50- Informal Recreational Activities**

- Trail Run/Hike (Vedauwoo)
- Basketball (Half Acre Gym, UW Campus)
- Games (Washington Park)

Thursday – 5/15

***Salon A***

9:00-10:15

- Bryson Brown (University of Lethbridge). Freedom w/out metaphysics.

10:30-11:45

- Michael Tooley (University of Colorado). The probability of God.

***Salon B***

9:00-10:15

- Jean-Paul Vessel (New Mexico State University). Supererogation for utilitarianism.

10:30-11:45

- Paul Weirich (University of Missouri). Utility and framing.

***Salon F***

9:00-10:15

- Walter Dean and Hidenori Kurokawa (CUNY). From the Knowability Paradox to the existence of proofs.

10:30-11:45

- Chris Tillman (University of Manitoba). Necessarily, everything necessarily exists.

***Salon G***

9:00-10:15

- Emil Badici (LSU). On Truth, the T-schema and Definiendum-Sensitive Definitions.

10:30-11:45

- Frederick Maier (West Florida University) & Donald Nute (University of Georgia). Soundness and completeness results for the defeasible logic NDL.

**11:50-1:50 Lunch**

***Salon A***

2:00-3:15

- Sara Rachel Chant (University of Missouri). Anscombe's 'knowledge without observation' in collective intention.

***Salon B***

2:00-3:15

- Patrick Dieveney (California State University, Long Beach). Everything is not enough.

***Salon F***

2:00-3:15

- Dustin Locke (University of Michigan). Ramsification and knowledge-which.

***Salon G***

2:00-3:15

- Michael Katz (Haifa). Infinity logic.

***Salon C***

**3:30-5:30 Keynote Address. George Bealer**

**5:45- Informal Recreational Activities**

- Trail Run/Hike (Vedauwoo)
- Ultimate Frisbee (Washington Park)
- Games (Washington Park)

Friday – 5/16

**Recreation Day**

Saturday – 5/17

***Salon A***

9:00-10:15

- Joshua Earlenbaugh and Bernard Molyneux (University of California, Davis). Intuitions: Just inclinations to believe?

10:30-11:45

- James Beebe (University of Buffalo). A priori skepticism.

***Salon B***

9:00-10:15

- Chris Hitchcock (Cal Tech) & Joshua Knobe (University of North Carolina). Norms and causation.

10:30-11:45

- Charles Cross (University of Georgia). Causal independence, the identity of indiscernibles, and the essentiality of origins.

***Salon F***

9:00-10:15

- Markus Glodek (University of Texas). A new conception of nonexistent objects.

10:30-11:45

- Michael Nelson (University of California, Riverside). Problems with contingent existents.

***Salon G***

9:00-10:15

- Malte Willer (University of Texas). New surprises for the Ramsey test.

10:30-11:45

- David Etlin (MIT). The problem of noncounterfactual conditionals.

**11:50-1:50 Lunch**

***Salon A***

2:00-3:15

- Kirk Ludwig (University of Florida). Constitutive rules and institutions.

***Salon B***

2:00-3:15

- Imogen Dickie (University of Toronto). How proper names refer.

***Salon F***

2:00-3:15

- Eric Carter (Ohio State). Realism, objectivity, and communication.

***Salon G***

2:00-3:15

- Michael Walsh Pelczar (National University of Singapore). Must an appearance of succession involve a succession of appearances?

***Salon C***

**3:30-5:30 Keynote Address. Charles Chihara**

***Salon D***

5:45- Cash Bar

6:30- Banquet Dinner
